	Key Features: McDougal Littell Literature is a seven-level standards-based literature program for grades 6-12. The program uses a blend of traditional and contemporary literature with a new emphasis on reading nonfiction and a special new feature for media study. Organized by standards clusters, teachers will encounter easy coverage of the Idaho Standards and a focus for literary study around life's most important questions. Stunning use of fine art and photography makes McDougal Littell Literature the premier literature program available today.

Steck Vaughn/ Harcourt Achieve (2006)	<b>Vocabulary Advantage for Life Science and Biology</b>	<b>Vivian Bernstein, et al</b>	<b>2007</b>	<b>6</b> (6-12)	<b>1419018868</b>	<b>R</b>
	Note: Adopted as “Resource Only”. Correlates 100% to vocabulary standards. Approved as Science resource. Key Features: Builds the academic and content-area vocabulary students need to comprehend basal textbooks. The program provides in-depth, specific instruction in three key areas: foundational content-area vocabulary, explicit vocabulary skills instruction and the language of testing. The instructional model offers multiple encounters with the words. Teachers will introduce new words and explain/model the focus strategy. Students will practice the focus strategy using two high-interest reading passages. Targets a variety of skills and strategies to help students with their content-area coursework. These skills and strategies include: building associations with word anchors; using word study skills such as affixes and roots; using parts of speech and multiple meanings; using synonyms, antonyms, and comparisons and contrasts; and using specific context clues like in-text definitions, examples and descriptions.

	Key Features: McDougal Littell Literature is a seven-level standards-based literature program for grades 6-12. The program uses a blend of traditional and contemporary literature with a new emphasis on reading nonfiction and a special new feature for media study. Organized by standards clusters, teachers will encounter easy coverage of the Idaho Standards and a focus for literary study around life's most important questions. Stunning use of fine art and photography makes McDougal Littell Literature the premier literature program available today.

<b>Steck Vaughn / Harcourt Achieve</b> (2006)	<b>Vocabulary Advantage for Life Science and Biology</b>	<b>Vivian Bernstein, et al</b>	<b>2007</b>	<b>7</b> (6-12)	<b>1419018868</b>	<b>R</b>
	Note: Adopted as "Resource Only". Correlates 100% to vocabulary standards. Approved as Science resource. Key Features: Builds the academic and content-area vocabulary students need to comprehend basal textbooks. The program provides in-depth, specific instruction in three key areas: foundational content-area vocabulary, explicit vocabulary skills instruction and the language of testing. The instructional model offers multiple encounters with the words. Teachers will introduce new words and explain/model the focus strategy. Students will practice the focus strategy using two high-interest reading passages. Targets a variety of skills and strategies to help students with their content-area coursework. These skills and strategies include: building associations with word anchors; using word study skills such as affixes and roots; using parts of speech and multiple meanings; using synonyms, antonyms, and comparisons and contrasts; and using specific context clues like in-text definitions, examples and descriptions.

	Key Features: A comprehensive, systematic literature and language arts program designed to ensure mastery of rigorous reading, writing, language listening and speaking skills for all students. The philosophy underpinning instruction in Elements of Literature is that instruction is differentiated, not students. Special accommodations are made for all students, but instruction stays focused on the grade level skill taught in the core program. Provides new and interesting ways to move students to mastery of the grade level skills. Contains a complete assessment package that is fully integrated into instruction allowing the teacher to make informed instructional decisions to maximize student achievement.

	Key Features: McDougal Littell Literature is a seven-level standards-based literature program for grades 6-12. The program uses a blend of traditional and contemporary literature with a new emphasis on reading nonfiction and a special new feature for media study. Organized by standards clusters, teachers will encounter easy coverage of the Idaho Standards and a focus for literary study around life's most important questions. Stunning use of fine art and photography makes McDougal Littell Literature the premier literature program available today.

<b>Steck Vaughn/ Harcourt Achieve</b> (2006)	<b>Vocabulary Advantage for Life Science and Biology</b>	<b>Vivian Bernstein, et al</b>	<b>2007</b>	<b>8</b> (6-12)	<b>1419018868</b>	<b>R</b>
	Note: Adopted as "Resource Only". Correlates 100% to vocabulary standards. Approved as Science resource. Key Features: Builds the academic and content-area vocabulary students need to comprehend basal textbooks. The program provides in-depth, specific instruction in three key areas: foundational content-area vocabulary, explicit vocabulary skills instruction and the language of testing. Teachers will introduce new words and explain/model the focus strategy. Students will practice the focus strategy using two high-interest reading passages. Targets a variety of skills and strategies to help students with their content-area coursework. These skills and strategies include: building associations with word anchors; using word study skills such as affixes and roots; using parts of speech and multiple meanings; using synonyms, antonyms, and comparisons and contrasts; and using specific context clues like in-text definitions, examples and descriptions.					
<b>Steck Vaughn/ Harcourt Achieve</b> (2006)	<b>Vocabulary Advantage for Earth and Physical Science</b>	<b>Vivian Bernstein, et al</b>	<b>2007</b>	<b>8</b> (6-12)	<b>1419018876</b>	<b>R</b>
	Note: Adopted as "Resource Only". Correlates 100% to vocabulary standards. Approved as Science resource. Key Features: Builds the academic and content-area vocabulary students need to comprehend basal textbooks. The program provides in-depth, specific instruction in three key areas: foundational content-area vocabulary, explicit vocabulary skills instruction and the language of testing. The instructional model offers multiple encounters with the words. Teachers will introduce new words and explain/model the focus strategy. Students will practice the focus strategy using two high-interest reading passages. Targets a variety of skills and strategies to help students with their content-area coursework. These skills and strategies include: building associations with word anchors; using word study skills such as affixes and roots; using parts of speech and multiple meanings; using synonyms, antonyms, and comparisons and contrasts; and using specific context clues like in-text definitions, examples and descriptions.

Zaner-Bloser, Inc. (2006)	<b>Read for Real Teacher Edition – Level F</b>	<b>Crawford, Martin, Philbin, Rizynski, Linse</b>	<b>2004</b>	<b>8</b>	<b>0736723625</b>	<b>83%♦</b>
	Key Features: Delivers the best practices of direct and explicit strategy instruction for reading and understanding nonfiction. The instructional model teaches comprehension, vocabulary, and fluency through high-interest content-area reading. A consistent instructional framework across all levels allows for meeting the needs of students reading on, below, or above grade level					
	Read for Real Pupil Edition – Level F				0736723560	
Zaner-Bloser, Inc. (2006)	<b>Word Wisdom Pupil Edition – Level H</b>	<b>Jerry Zutell, PhD</b>	<b>2004</b>	<b>8</b>	<b>0736724524</b>	<b>R</b>
	Note: Adopted as “Resource Only”. Correlates 77% to Standard 2. Excellent for vocabulary. Key Features: Students are introduced to vocabulary in nine thematic units. They first experience new vocabulary words in the context of a weekly reading selection and use context clues strategies to unlock word meanings. A variety of skilled -based activities provide multiple interactions for deep processing of word meanings. Students apply their new vocabulary words in meaningful ways to show what they know.					<b>45%♦</b>
